Datto Networking:
Why Networking as a Service?

Simplify service delivery. Scale faster. Grow revenue.

Datto Networking's modern Networking as a Service (NaaS) licensing model empowers managed service providers (MSPs) with solutions that are fully managed, cloud-native, and built for scale so you can deliver secure, reliable, and profitable networking without the complexity.

Why MSPs choose Datto Networking

Solutions that are easy to deploy, manage, and support with benefits that drive operational efficiency and business growth:

Predictable profitability

» Drive monthly recurring revenue with all-inclusive, subscription-based pricing

» Low-to-no upfront hardware costs with flexible purchase and resale options

Effortless management

» Centralized multi-tenant cloud platform with zero-touch provisioning

» Automated firmware and software updates reduce manual work

Integrated support and protection

» 24/7/365 expert support via phone, chat, and email

» Lifetime hardware warranty with advanced replacement*

» Built-in integrations with everyday tools like RMM, PSA, documentation, and more

All-inclusive, MSP-ready, no surprises

Every license includes everything MSPs need to succeed. No hidden fees, no bolt-ons, and no complex contracts.

» Cloud managed via Network Manager

» Enterprise-grade performance

» Remote troubleshooting

» Seamless integration across the Kaseya 365 platform, including Datto RMM, Autotask, IT Glue, and more

> " With Datto Networking, we manage the network so our clients can focus on their business. It's that simple. "

The smarter alternative to traditional networking

Modern networking requires more than just hardware. MSPs need to deliver secure, high-performing, and fully managed connectivity—without the overhead of legacy systems.

NaaS vs. traditional networking: a clear advantage

Factor	Traditional networking	Datto Networking (NaaS)
Cost	High upfront hardware investment	Predictable monthly cost
Maintenance	Manual patching, inconsistent updates	Automated, continuous updates
Warranty	1–3 year limited coverage	Lifetime warranty with advanced replacement*
Support	Reactive, break-fix model	Proactive 24/7/365 expert support
Convenience	Multiple vendors, contracts, tools	One trusted provider, one contract, cloud-managed in one place

* Warranty subject to terms in partner agreement

Built for MSPs, designed for growth

With Datto Networking, MSPs can confidently deliver a seamless, integrated experience that increases efficiency, boosts profitability, and enhances client satisfaction.

» **Integrated:** Native support for tools like Datto RMM, Autotask, IT Glue, and more to streamline delivery and troubleshooting

» **Zero-touch provisioning:** Deploy new networks remotely, without field visits

» **Fewer disruptions:** Always-on security and automated updates keep clients protected and connected

» **Peace of mind:** Keep your network secure and managed in one place with one monthly fee, no surprise costs, and always-up-to-date technology

Easy to sell, easy to support

> Our networking service includes the hardware, setup, updates, and support — all bundled into one predictable monthly fee. No surprises, no outdated tech. We manage the network so you can focus on growing your business.
