datto

A **Kaseya** COMPANY

Improve remote access and file collaboration in the workplace

Datto Workplace™ is built for business – with configurable security and easy remote access to files for data management and business continuity. It helps business teams be more productive and efficient through secure access to any type of business content, from any location, using any device.

Presentations, datasheets, sales order forms; these files are the groundwork for driving the business forward. Employees need to access those files easily and securely from wherever their work takes them.

Reduce VPN, FTP and email storage issues

- Improve collaboration across teams. Send secure links and keep feedback and conversation around content, not lost in emails

- At your desk or on the road, keep everyone in sync across offices and networks, whether there is a connection or not

- Intuitive, easy sharing for all employees means access to company content is always at their fingertips

Version control and manageable collaboration

- All versions of files and folders are stored for 180 days so in case of accidental or malicious changes, including ransomware, the files can be reverted to the previous version

- Create a discussion around files, gather feedback immediately and make changes without delay

- Capture comments, version history and file permissions all in one place

Smart, safe and secure

- *Trust your content is safe with Datto's SSAE 16 Type II report, 256-bit encryption, HIPAA compliance and Two-factor Authentication*

- Safeguard your content from malware and ransomware with automated checks, isolation and deletion

- Ensure data governance with complete access control management features

- Access and schedule full audit trails to ensure compliance and control

- Automate user access and management with Active Directory integrations. Offload user authentication to your IdP of choice with SAML 2.0 SSO integration.

- Automate file access by leveraging groups and policy assignment.

- Advanced public sharing permits secure file links to be sent to third parties and to set access to view, download, upload and even edit. Public Shares can be password protected and set to expire after a defined period or access count.

Datto Workplace Benefits

Hybrid cloud network support

- File server migrations and integration

- Bi-directional sync

- Cloud backup and versioning

More mobility

- Collaborate from anywhere, on any device

- Integrated on-device security

- Smart mobile sync and online/offline mode

- Review, annotate and display files on IOS phones and tablets

- Integrate with Microsoft 365 to open Office docs in native apps with one click

- Add Workplace as a storage location to access files from within the Microsoft Office apps

Secure Collaboration for
Construction
Companies

Your blueprint for working better on the go

Access to contracts, blueprints and images from job sites and field offices is critical. Miscommunication, lost documents, and delayed responses all lead to unnecessary slowdown and cost overruns. A secure collaboration solution shortens review times, improves operational efficiencies, and strengthens

Access project plans anywhere

- Preview CAD/CAM files, photos, contracts and 75 other file types from your mobile device – **anytime, anywhere**

- **Easily capture and upload** photo or video onsite and update the team on job progress

- **No connection? No problem.** Always have the most current blueprints and critical files at your fingertips on or offline

Works well with subcontractors

- **Create a secure workspace** to easily collaborate throughout all phases of a job

- Access bids, negotiate and check the status of a job **from any device**

- **Annotate and markup** blueprints and plans, finalize and sign contracts all from IOS mobile devices

- Open Microsoft Office docs in their **native application** in one click from Workplace

- Add Workplace as a storage location to access shared files directly within Microsoft Office apps

" We are dramatically more productive on the road.
Files are automatically synced and ready for use from anywhere."

Danielle Douthett
Project Executive, Level 10 Construction

" The security factor is critical to our company. We were looking for an inexpensive way to communicate with others but also a simple site to use and navigate. Datto Workplace was the perfect answer to our needs."

Julie Worley
Assistant to the Vice President, Calamar Construction Management

Secure Collaboration for
Healthcare

Your prescription for content in a HIPAA-compliant, secure solution
Cloud technologies are rapidly transforming how healthcare organizations solve their content sharing challenges. At the center of this adoption is HIPAA compliance. As records are digitized, healthcare organizations need leverage a secure collaboration solution that ensures compliance with HIPAA from the examination room to the office.

Nurses and doctors need instant and accurate data to deliver quality patient care, whether that means collaborating with team members on the latest research data, contributing to a new treatment protocol or getting a third-party opinion on X-rays.

Maintain HIPAA compliance

- Datto signs HIPAA Business Associate Agreements (BAAs) with our customers
- SOC 2 Type 2 audited georedundant, regional datacenters ensure availability and security that meets the most rigorous of standards
- Integrated MDM, SSO (Single Sign-On) and Active Directory keeps you in control of document sharing inside and outside the healthcare ecosystem

Enable access anywhere

- Access patient records, x-rays, photos and 75 other file types anytime, anywhere
- Capture patient photo or video and securely share them with doctors, nurses, and caregivers
- Securely share records, studies, grants and journals with trusted third parties with customizable Public Links

Improve training, research and information sharing

- Collaborate across departments and with outside research partners with secure sharing environments
- Provide up-to-date documentation and training materials for continued education for internal staff
- Eliminate the need for unreliable VPN access with a more stable, secure solution

Secure Collaboration for
High Tech

Time is money and antiquated systems hamper productivity and sales. Fast-paced organizations cannot rely on inefficient data practices, limited access and complicated corporate workflows. VPN access can be clunky and unreliable.

A simple, scalable solution is required to create a secure environment where cross-department collaboration can thrive, where sales can effectively communicate with prospects and where file sharing with venders and contractors happens quickly and easily.

Cross-functional productivity

- **Make it easy for sales** to have access to the most up-to-date and effective sales collateral, datasheets and competitive information

- **Enable marketing and sales** with a secure, accessible corporate document repository with latest file version

- **Keep control** of legal documents such as contracts, invoices and non-disclosure agreements

Cross-department collaboration

- Whether in the office, remote or across the country, disparate teams can **easily share** plans and projects in a secure Project folder

- **Centralize** content and feedback

" From simplified file sharing to easy document access to assured data protection Datto Workplace gives us everything we need to support our business growth with the confidence that our data is always accessible and secure."

Mariena Foley
Operations Director, FastPencil

" Datto Workplace allows us to better achieve our daily delivery goals and will continue to help our business grow by allowing us to spend time on the stuff that matters, without wasting time, resources, or worry on the core operating functions."

Barney Marvin
Vice President of Sales, AcquireWeb

Secure Collaboration for
Legal

Sustained productivity with the cloud

Virtual data room

- **Keep all parties up-to-date with the latest contracts** or other due diligence files and know who's seen which docs, and when and where

- **Only share folders and files to specific individuals.** Restrict privileges to Read Only, prevent downloads and stay in control of who is accessing what

- **Multiple layers of protection keep your business deals safe and secure.** Set access to files to expire after accesses or on a specific date and time

Improve client relationship

- **Attorneys and clients always have access** to documents, case files, etc. from desktop, laptop, phone or tablet

- **Full-text search** on everything in the cloud

- **Modernize how content is shared** with clients and partners, remove file size limits and control versions

" With Datto Workplace's sync capabilities I always have the files I need on hand, even without internet. I'm able to quickly pull up what I need on the spot. That's productivity you simply can't deny."

Crystal L. Nichols
ACP, Bowen Painter, LLC

" The accessibility benefits cannot be overstated. Having access to my entire case file – on a laptop or iPad – when in court or at a client's office is a tremendous benefit. It also makes file sharing and notating seamless and painless."

Anthony Carabba Jr.
Principal, Carabba Law Firm
