

# Empower Your Clients With Smarter Endpoint Management

**95%** of MSPs agree that RMM integration is vital for smooth IT operations.

Want to know what sets top-performing MSPs apart? They embrace integration to streamline IT operations and keep their focus on what matters most. With Datto RMM, you get an all-in-one solution that combines robust endpoint management, real-time monitoring and automation tools that are deeply integrated to give you full control. Tackle your clients' biggest challenges, like resolving tickets faster, minimizing downtime and enhancing reporting, with ease. Here's how to fix your clients' greatest pain points with streamlined IT processes.

## WHY DATTO RMM WORKS FOR YOU AND YOUR CLIENTS

### Your Pain Points

Struggling to monitor and manage endpoints as they grow and multiply?

Worried about ransomware threats slipping through the cracks and targeting your endpoints?

Dealing with data loss from system crashes while relying on time-consuming manual backups?

Unable to detect and respond to suspicious threats before they strike?

### The Solution

All-in-one oversight for all endpoints with advanced real-time monitoring, task automation and effective troubleshooting tools.

Complete coverage from patches to protection, antivirus to ransomware detection — no endpoint is left behind.

Automated backup processes that protect your data while ensuring peak performance and productivity.

Cutting-edge threat protection that enables full visibility across all endpoints and devices.

With no hardware to maintain and a **99.99%** availability, Datto RMM makes it easy for you to focus on your endpoints.

## UNLOCK THE BENEFITS OF DATTO RMM

### Own your IT operations

With easy and efficient endpoint management, you can manage all your devices — anywhere and everywhere.

### Higher control, lower costs

With built-in IT automation tools, you can cut down on overall IT costs and minimize downtime.

### Maximize IT efficiency

By enhancing issue resolution with quick responses and fixes, you can free up your time and resources to focus on high-priority tasks.

### Breach-proof protection

With proactive patching, latest updates and security, you can nip data breaches in the bud.

With a **4.5**-star rating on **G2** from nearly **700** users worldwide, **Datto RMM** is a crowd favorite!

Datto RMM is your shortcut to smarter, faster IT management — with automation that keeps systems running and performance high.
