BACKUPIFY PROTECTS G SUITE DATA FOR IRISH NON-PROFIT

backupify

a datto company

Foróige is Ireland's leading non-profit youth work organization, operating in 26 counties around Ireland. Their purpose is to "enable young people to involve themselves consciously and actively in their development and in the development of society."

Foróige works with over 50,000 young people between the ages of 10-18 through volunteer-led clubs and staff-led youth projects. To facilitate such a massive network of volunteers and young adults, Foróige requires a reliable IT infrastructure to ensure they never miss a beat.

Adrian O'Donnell is the IT Manager at Foróige, and his main responsibility is to provide solutions that meet governance requirements, protect company data, and make sure systems adhere to GDPR requirements.

When Foróige conducted an audit to identify weaknesses in their IT infrastructure, they found a weak spot regarding G Suite. According to O'Donnell, he identified that Foróige's G Suite data was at risk - about 3 TBs worth. "It's important to remember that Google does not serve as backup. We learned that while Google itself had been treated as a backup for our files, it's very much NOT meant for that use. We have about one million documents in [G Suite] and it serves as the primary storage means for files and folders for staff's use."

Foróige compared various options for G Suite backup, and Backupify outshined the competition. Backupify for G Suite keeps Google Cloud data safe from all forms of harm, inappropriate behavior, and data loss. According to O'Donnell, Backupify's ease-of-use, support quality, and storage capabilities in the EU were what ultimately sold them. "I perceived Backupify as the industry leader. No one else was as established and as thorough."

O'Donnell says Foróige has been very satisfied with the Backupify solution. "It does exactly what we need. We've had no problems, and we're glad we have it!"

I PERCEIVED BACKUPIFY AS THE INDUSTRY LEADER. NO ONE ELSE WAS AS ESTABLISHED AND AS THOROUGH.
