

**PROTECTING
BUSINESS DATA,
NO MATTER
WHERE IT LIVES.**

Datto Fact Sheet

About Datto

Datto provides business continuity solutions to secure the essential business data for thousands of companies around the world. Our integrated suite of services include our market leading data backup and disaster recovery (BDR) offerings, our advanced Cloud-to-Cloud (C2C) backup services for leading SaaS applications, and our innovative network continuity solutions. All delivered as managed services primarily through Managed Service Providers (MSPs) for the data protection needs of small and mid-sized businesses or distributed locations of large enterprises.

Company Founded: 2007

Founder: Austin McChord, CEO

Number of Employees: 700+

Funding: Datto is privately held and cash-flow positive. In 2013, General Catalyst Partners invested \$25M in growth capital, but the company is primarily self-funded. In 2015, Datto raised \$75 million in a Series B round led by Technology Crossover Ventures (TCV).

Acquisitions: In 2014, Datto acquired Boston-based Backupify, adding protection of SaaS applications such as Salesforce, Google docs and Office 365 to its product portfolio. In 2017, Datto acquired Portland-based networking services leader Open Mesh, to deliver Network Continuity.

Offices and locations: Datto's corporate headquarters is in Norwalk, CT, with offices in:

- Boston, MA
- Rochester, NY
- Monroe, CT
- Portland, OR
- Toronto, Canada
- Reading, UK
- Sydney, Australia
- Singapore

Data Backup and Disaster Recovery (BDR)

Datto's BDR solutions serve a rapidly expanding market of over 5,000 MSPs worldwide. The company's 250+ PB purpose-built cloud and family of software and hardware devices provide backup and recovery for locally stored business data. Our market leading SIRIS 3 is the first data protection platform that protects any physical, virtual and cloud infrastructure running on Windows, Mac or Linux. With our Instant Virtualization technology, businesses can be up and operational within seconds after an incident. The company's BDR products comprise of Datto SIRIS, Datto ALTO, and Datto NAS.

Cloud-to-Cloud (C2C) Data Protection Services

Datto's C2C solutions protect the essential business data generated by the leading SaaS applications including Microsoft Office 365, G Suite, and Salesforce.

Managed Networking Services

Datto's Managed Networking Services deliver Network Continuity with always connected WiFi and fully integrated 4G LTE failover and failback. The product line, optimized for deployment in small to medium-sized businesses, includes a collection of high-performance, networking devices complete with centralized, cloud-based management. Datto's Managed Networking products consist of the Datto Networking Appliance, Datto Networking Switches and Datto Networking WiFi.
